What First Census Showed.

In comparing the first census of Windham county in 1790 with the census of 1910, some interesting factors. was the banner town in point of popula-tion, with 2,422 inhabitants, while in 1800 it had only 782. Putney came Purchase Electrical second with 1,848, while the census of 10 years ago showed a population of only 969. Westminster, with a popula-tion of 1,590, stood third in the list, hav-ing 10 more than Brattleboro, but the population of Westminster has decreased nly 304 since 1790. Dummerston had -Lamps, Shades, only 304 since 1790. Dummerston had was 723, or less than half. Athens had 450 to 180 10 years ago. Halifax 1200 to 682 at the last census. Marlboro 629 Flatirons, Motors, towns in the county have increased in opulation since taking the first census. This is probably due to the fact that they were not fully settled in 1790 and also to the fact that their population is not so directly affected by the present actrical Contractors & Engineers. Under Amer. Exp. Office, Main St. Tel. 399-11 abandonment of farms. According to the the faded records of the census bureau Brattleboro had the largest family Vermont. The average number of the amilies of Brattleboro was six, but Joseph Arms, the first man on the list, was accredited with a family of 18 persons, and Henry Cole's family numbered 16.
